

SONLOK®

Anaerobic Adhesives

Who We Are...

- Parson Adhesives Inc. is a leading manufacturer of wide range of industrial and engineering adhesives for variety of assembly and MRO applications
- Over 2500 Customers in 52 Countries
- 100% US based company
- Parson is a research-based innovation company
- We have a product for every industry for a wide variety of applications

Our Product Range

SONLOK[®]
Anaerobic Adhesives

PARTITE[®]
UV Curable Adhesives

PARTITE[®]
Composite Adhesives

PARFIX[®]
Cyanoacrylate Adhesives

PARBOND[®]
Epoxy Adhesives

PARBOND[®]
Polyurethane Adhesives

SONLOK[®]
Anaerobic Adhesives

SONLOK[®]

Anaerobic Adhesives

- The word "anaerobic" means "without air", which means that these adhesives cure on removal of air (oxygen). The other pre-condition for anaerobic adhesives to cure is that they need to be in contact with a metal. Hence, anaerobic adhesives remain in liquid form until they are isolated from oxygen and come in contact with metals like iron, copper, etc.
- Parson offers SONLOK[®] High Performance Anaerobic Adhesives which find use in various industrial and engineering applications. These include:
 - SONLOK[®] Retaining Compounds
 - SONLOK Thread lockers
 - SONLOK[®] Gasketing Compounds
 - SONLOK[®] Thread Sealants
 - SONLOK[®] Pre-Applied Threadlocker Adhesives
- PARSON is one of the leading manufacturers of wide range of high quality anaerobic adhesives for variety of industrial engineering applications.
- SONLOK range of anaerobic adhesives are currently used by some of the large companies in USA, Germany, France, Italy, UK, Turkey, Brazil, Mexico, China & Taiwan.
